

Why Choose LMS Events & Entertainments?

When you're looking for an entertainment provider for your event and comparing products, services and prices, there are many things you should consider.

We offer a complete service of entertainment, a wide range of exciting and fun equipment, hosting, experienced support staff, venue finding and event management expertise.

We are very reliable having never failed to deliver an event in almost 30 years.

We'll go the extra mile to give you the best event possible. We're regularly told by clients that our events have exceeded their expectations.

You will have a dedicated event manager to look after your event. All our event managers have between 8 and 30 years full time experience in the business. Each customer is given their event manager's phone number with 24/7 access if needed. We pride ourselves on our high levels of customer service and speed of response.

Our events team are happy to arrange venue or site visit to check how the event will be hosted. We are also happy for you to visit us, see the equipment we have, discuss the event details and find out how we will make it a success.

Check out our feedback and social media. We have extensive, up-to-date testimonials throughout our web site from personal and corporate customers, large and small, many of whom will provide recommendations. We also have 5* reviews on Facebook and are active on Twitter with around 500 followers.

We also have good experience of international events, supplying equipment, hosting and event management for corporate events from 1992 right up to the present day. We specialise in European countries such as Belgium and France and have been as far afield as Hong Kong.

We maintain a fleet of up-to-date, reliable vehicles to provide safe and efficient transport of equipment to the venue. Our vehicles are unbranded - we let our events speak for themselves.

We are constantly looking out for new products and ideas to make your event better than ever. The last thing you want is old, worn and out-of-date equipment. Over the years LMS has been instrumental in the design and presentation of new products and equipment. We stay on the cutting edge of the industry, ensuring your event stands out from the crowd.

We have all the essential certifications and documents in place including health and safety matters, public liability insurance, Section 11(6) certificates, event authorization, PAT test certificates, food hygiene qualifications, ADIPS and DBS checks. All of our staff are fully trained, including manual handling, and are certified where necessary.

We can provide full details of any event including equipment specification, staff experience and qualifications, the benefits of a particular venue or specific outcomes (e.g. for team building events). All this helps you judge what value for money you're getting when you compare suppliers.

Our terms and conditions are readily available and quite clear. We are happy to answer any questions relating to the contract.

Taking all this into account, along with exceptional customer support and exciting events that appeal to both corporate and personal customers, shows why we have been providing events both nationally and internationally for around 30 years.

We aim to deliver a top quality event at a fair price. The quality of our service will be appreciated by those attending the event and will reflect well on your company.

We understand that the bottom line for many people is cost. But when you're searching for an events and entertainments provider and comparing prices please bear all the above points in mind and ensure you're comparing like for like. Or make life simple and ring us first.
